

Networking Luncheon Directory

	<p>James Allen, PhD jallen@umn.edu</p> <p>Research Interests: American Indian/Alaska Native health, rural health, community intervention, CBPR</p> <p>Grant Skills: small samples design and analysis, measurement, cultural methods, mixed methods</p> <p>Data Sets: Alaska native suicide intervention (requires tribal approval process)</p>
	<p>Michele Allen, MD, MS miallen@umn.edu</p> <p>Prior to joining department faculty and the Medical School Program in Health Disparities Research, Michele Allen, MD, MS, completed a fellowship in primary care research and the Robert Wood Johnson Clinical Scholars Program. She is active in health disparities research and scholarship and serves as a reviewer for several scientific journals.</p>
	<p>Nicole Basta, PhD, MPhil nebasta@umn.edu</p> <p>Research Interests: Infectious diseases, vaccines, epidemiologic methods, adolescent health, maternal and child health, global health</p> <p>Grant Skills: Epidemiologic methods/study design, international research experience, survey design, electronic data collection tools, clinical epidemiologic studies, longitudinal follow-ups</p>

Sonya Brady, PhD
ssbrady@umn.edu

Research Interests: Influence of normative developmental experiences and stressful life experiences on health risk behaviors among youth; Health protective and health promoting effects of assets possessed by individuals and their families, peers, schools, and communities; Use of technology to measure and promote health behaviors among youth; Community partnerships and coalitions to reach and strengthen diverse communities; Areas of application include mental health and emotional well-being, academic engagement, sexual health, bladder health, violence exposure, and substance use.

Grant Skills: Conceptual model development, community-engaged and transdisciplinary science approaches

Carolina Branson
ferna149@umn.edu

Carolina F. Branson is a PhD candidate in the Department of Communication. Her research interests include health communication, media communication, and feminist studies. Carolina has experience teaching Public Speaking, Media Studies, and Interpersonal Communication.

Danielle Bullock, MD
brue0190@umn.edu

Research Interests: Disparities in pediatric rheumatology clinical and patient-reported outcomes

Grant Skills: Currently completing MPH

Kathleen Call, PhD
callx001@umn.edu

Research Interests: Inequities in access to health care and health insurance as well as developing system-focused and community-driven solutions to diminishing barriers to health care

Grant Skills: Survey research, community engaged scholarship

[Kendall Choate](#)
choat008@umn.edu

Kendall Choate works in the Department of Family Medicine and Community Health. She is one of the department's pre-award grant staff.

[Elisheva Dana, MD, MPH](#)
elizabeth.danan@va.gov

Research Interests: equity and value in primary and preventive healthcare, women's health research

[Roli Dwivedi, MD](#)
dwive003@umn.edu

Roli Dwivedi, MD, is the medical director at the Community-University Health Care Center. She also serves on a few committees, including as chair on the Minnesota Academy of Family Physicians communication and member services committee; a member on the UCare quality improvement committee; and as a planning committee member for the annual Minnesota Reproductive and Sexual Health Update conference. Dwivedi's interest in medical education drives her to teach and mentor medical students and residents, especially in culturally diverse populations. She strives to increase clinical efficiency, keeping the needs of patients as the primary focus.

Lynn Eberly, PhD, MS
leberly@umn.edu

Research interests: medical imaging, clinical/intervention trials, neuroscience and neurodegenerative diseases, psychiatry/psychology, endocrinology, and other related applications.

Milton "Mickey" Eder, PhD
meder@umn.edu

Research Interests: Community engaged research, patient safety, health literacy and patient activation research among priority populations

Sue Everson-Rose, PhD, MPH
saer@umn.edu

Research Interests: psychosocial stress and stress management; CVD; stroke; health disparities; women's heart health; integrative health interventions

Grant Skills: Writing, mentoring

Data Sets: Possibly SWAN or CHAP data

Esam El-Fakahany, PhD
elfak001@umn.edu

Research Interests: Alzheimer's disease therapy

Grant Skills: Mentoring skills

[Deb Finstand](#)
finst004@umn.edu

Deborah Finstad currently works at the Department of Family Medicine and Community Health, University of Minnesota Twin Cities. Deborah does research in Public Health, Epidemiology and General Practice. Their most recent publication is 'Quality of life among postmenopausal women enrolled in the Minnesota Green Tea Trial.'

[Sarah Gollust, PhD](#)
sgollust@umn.edu

Research Interests: Communication and public opinion; public beliefs about health equity; media effects

Grant Skills: Survey research; media content analysis

[Kate Grannon, MPH, RD](#)
youn1286umn.edu

Research Interests: Hunger relief, nutrition, childhood obesity, policy

Grant Skills: Project management, literature reviews, administrative support (LOS, IRB, etc.)

Data Sets: ScOPE

[Brenna Greenfield, PhD, MS](#)
green970@d.umn.edu

Research Interests: American Indian health, substance abuse disorder treatment, mindfulness, discrimination

Grant Skills: Design of behavioral treatment research, measurement selection

Data Sets: Cross-sectional and daily diary data on discrimination, substance use, and cultural buffers for American Indian college students

	<p>Margaret (Maggie) Hacker hacke226@umn.edu</p> <p>Maggie Hacker works in the Department of Family Medicine and Community Health. She is one of the department's pre-award grant staff.</p>
	<p>Deborah Hendricks, MPH, MSPH, MCH dlhendri@umn.edu</p> <p>Research Interests: Translational Research Grant Skills: Community engagement resources</p>
	<p>Rachel Hardeman, PhD, MPH hard0222@umn.edu</p> <p>Research Interests: equity, race and racism, maternal and infant health, health and social policy, medical education</p> <p>Grant Skills: survey research, mixed methods, public health critical race praxis, community engaged research, operationalizing inequality and racism</p>
	<p>David Haynes dahaynes@umn.edu</p> <p>Research interests: Health Geography; Spatial Demography; Health Access and Health Disparities</p>
	<p>Adrian Lawrence, MD aclawren@umn.edu</p> <p>As a medical professional belonging to a minority group, I am involved in academic endeavors seeking to improve access of care for patients with disadvantageous ethnic backgrounds and promote diversity in medicine. In addition, I am dedicated to excellence in teaching and the creation of effective learning environments across the continuum of medical education.</p>

Rhonda Jones-Webb, DrPH, MPH

jones010@umn.edu

Research Interests: Minority health, alcohol epidemiology and policy with a special focus on race, social class and neighborhood influences

Grant Skills: Conceptual, methodological (e.g, study design, measurement development); mixed methods approaches; policy adoption, implementation, and evaluation; multi-level interventions

Data Sets: Intersection of State and Local Alcohol Policies

Jennifer Linde, PhD

linde074@umn.edu

Research Interests: Obesity, health behaviors

Grant Skills: Intervention development, evaluation planning, psychological assessment

Data Sets: Tracking study—weight loss intervention

Pam Lutsey, PhD, MPH

lutsey@umn.edu

Research Interests: CVD

Data Sets: ARIC, MESA

Susan Mason, PhD, MPH

smmason@umn.edu

Research Interests: Psychosocial stress, social environments, lifecourse health, causes and consequences of violence and adversities (particularly in childhood)

Grant Skills: Epidemiologic methods, data analysis

Data Sets: Access to the Harvard Cohorts (have worked extensively in Nurses' Health Study 2), and a NYC birth records longitudinally linked to hospital discharge data over first year after birth

Thomas Murray, PhD, MS
murra484@umn.edu

Research interests: general application areas of cancer treatment and management, diabetes mellitus and end-stage renal disease, and mental health and addiction; Bayesian modeling, Clinical trial design, Dynamic treatment regimes, Evidence synthesis, Time-to-event analysis, Competing risks, Pairwise comparison

Rebekah Nagler, PhD
nagle026@umn.edu

Research Interests: Health communication, communication inequalities, community-engaged research

Grant Skills: Theory and methods related to health communication and, more generally, media effects research; several social science research methods (e.g., media content analysis, in-depth interviews, focus groups, surveys, experiments).

Hannah Neprash, PhD
hneprash@umn.edu

Research Interests: evidence-based policy during a time of rapid transformation in health care payment and delivery systems; how health care providers respond to incentives, both financial and otherwise; physician decision-making drives utilization, spending, access, and quality in health care.

Theresa Osypuk, SD SM
tosypuk@umn.edu

Research Interests: How place (neighborhoods; residential segregation) affects health and health equity (disparities mainly by race/ethnicity, nativity, socioeconomic status); if so, when in the life course; how policies outside of the health sector influence health and health equity; social epidemiology; methods

Grant Skills: applying causal methods to address social epidemiology questions; operationalizing inequality (e.g. neighborhood inequality); analyzing census data; creating life course residential histories

Cuong Pham, MD

Dr. Cuong Pham is an Assistant Professor of Medicine at the University of Minnesota. He completed his residency training at the University of Minnesota in Internal Medicine and Pediatrics. Currently he has a mix of clinic at the Community University Health Care Center (CUHCC), which serves the underserved citizens of Minneapolis, and inpatient wards at the University of Minnesota Medical Center. He has had varying cultural experiences working abroad in Vietnam and South Africa.

Carolyn Porta, PhD, MPH, RN SANE-A

porta@umn.edu

Research Interests: Young adult emotional well-being, LGBTQ youth/young adult health, sexual violence, global health
Grant Skills: Mixed methodologist, qualitative expertise, use of technology in research
Data Sets: College Student Health Survey

Marizen Ramirez, PhD, MPH

mramirez@umn.edu

Research interests: Injury and violence prevention and control; injury and violence epidemiology; pediatric injuries; adverse child experiences; disaster preparedness; traffic injuries; agricultural injuries; intervention development, implementation and evaluation; policy evaluation; mixed methods.

Chris Reif, MD, MPH

reifx002@umn.edu

Christopher Reif, MD, MPH, serves as director of clinical services of the Community-University Health Care Center and is involved in medical student education, co-directing the Urban Community Ambulatory Medicine(UCAM) clerkship and precepting for the Family Medicine Clerkship. He is a charter member of the National Assembly of School Based Health Care and former board chair of the Minnesota Organization for Adolescent Pregnancy, Prevention, and Parenting.

Charles R. Rogers, PhD, CHES

crrogers@umn.edu

Research Interests: Colorectal Cancer Prevention & Control, Men's Health Disparities, Behavioral & Community-based Interventions, Health Policy, Survey Methodology

Elizabeth Rogers, MD, MAS

earogers@umn.edu

Research Interests: Safety-net primary care interventions to support patients with multiple chronic conditions, particularly diabetes; treatment burden; community health worker and other paraprofessional patient support; patient-centered outcomes research

Grant Skills: Adult and pediatric primary care physician in local FQHC, implementation science

Youssef Roman, Pharm.D., PhD

roman247@umn.edu

Research Interests: Pharmacogenomics, Cardiovascular Diseases, Health Disparities

Grant Skills: Clinical transnational, study design

[Madhuri Kasat Shors, MD, MPH](#)

mkshors@umn.edu

Bio/ interests: Chief Psychiatrist at UMN's Community-University Health Care Center (CUHCC) where she spends her time doing a mix of clinical and leadership work. Clinical work focuses on out-patient adult psychiatric care with diverse population- persons of color, immigrants and refugees. Leadership activities around advancing health equity include improving care quality, access, integrated care, and teaching. Her work is informed by whole-person, recovery-oriented & wellness paradigms, sociocultural psychiatry, social determinants of health, mindfulness-based therapies, mental health effects of trauma, migration, and racism, and reducing polypharmacy. She is an Assistant Professor Minnesota's Department of Psychiatry, where she teaches an annual seminar for residents on sociocultural psychiatry, as well as precepts residents at CUHCC. She has a M.P.H. from Johns Hopkins University Bloomberg School of Public Health with focus on global health and mixed qualitative / quantitative methods, a M.D. from George Washington University School of Medicine and Health Sciences, and completed residency in Adult Psychiatry at Cambridge Health Alliance / Harvard Medical School.

[Ingrid Schneider, PhD, MS](#)

ingridss@umn.edu

Research Interests: human dimensions of natural resources with specific interests in constraints to benefits afforded by access to and engagement with natural and outdoor spaces; parks/tourism consumer behavior

Grant Skills: Multiple methods

Data Sets: Multiple consumer behavior studies (local, national, international) with motivation, location, demographics; varies

[Amy Shanafelt, MA](#)

shanafel@umn.edu

Research Interests: Health equity, youth development, food/nutrition and agriculture

Grant Skills: Grant writing, study design, recruitment/data collection within schools

Data Sets: Discuss PIs

Tetyana Shippee, PhD

tshippee@umn.edu

Research Interests: Racial disparities across the life course, long-term care, aging

Grant Skills: Mixed methods, qualitative, quantitative, research design

Data Sets: MDS

Mike Sundberg, MD, MPH

sundb107@umn.edu

Research interests: global health, rural health system strengthening, health care disparities, and medical education.

Rachel Widome, PhD, MHS

widome@umn.edu

Research Interests: Prevention policy, tobacco, obesity, sleep, adolescents, young adults, veterans, economic factors, environmental factors

Grant Skills: Epidemiology

Data Sets: Veteran health behavior dataset
