

EXECUTIVE PUBLIC HEALTH ADMINISTRATION & POLICY (MPH)

The Executive Public Health Administration & Policy cohort model curriculum emphasizes the skills necessary for population-focused administration, policy development, and evidence-based public health. Students take a total of 42 credits. This is the proposed curriculum for Cohort 6.

Executive Public Health Administration & Policy MPH students complete their MPH degree with a combination of online (33 credits), five on-campus sessions (7 credits), and a 2 credit Field Experience.

All students do an Applied Practice Experience (APEX; formerly Field Experience). All students complete a master's project (Integrated Learning Experience) in an area of interest related to public health. Students are encouraged to choose projects in their communities or at their place of employment.

Students choose electives from UMN online offerings, courses at the SPH Public Health Institute, and other options to suit their individual learning goals.

SUGGESTED SCHEDULE

(COHORT 6)

SPRING 2019 (7 CREDITS TOTAL)

PUBH 7710 Setting Priorities and Framing Public Health Issues, 4 days on-campus (2 cr., hybrid)
