I. Course Description

This course will explore the fundamental principles of health conservation and disease prevention, and provide an introduction to scientific, socio-cultural, and attitudinal aspects of alcohol and drug problems.

Acknowledgments

The contents of PubH 3004 have been developed with the contributions of numerous instructors. Dr. Harry Lando and Sarah Sevcik, the current instructors, have been involved with the majority of recent content and modifications. Former faculty/instructors, including Jim Rothenberger and Dana Farley, had roles in either the conceptual development or actual content of the current course, and are acknowledged for their contributions.

II. Course Prerequisites

There are no prerequisites for this course.

III. Course Goals and Objectives

The basic objectives of this course — indeed of all courses and of the university itself are engraved in stone over Northrop Auditorium. Glance at them from time to time. The instructors of this course take them seriously and have designed the lectures and examinations to meet these objectives. In a more practical sense, we can identify six major educational objectives:

1. To understand the impact of human health on history, cultures, religion, a community’s sense of values — even politics, law, and community’s organization — as an orientation to the “scholarly” aspect of personal and community health.

2. To understand enough about one’s physical self — structure and function — so that one can communicate intelligently about health and disease, treatment and quackery.

3. To teach University students enough about health services, health products, and the health delivery system so that they will be able to function effectively as consumers in the health marketplace.

4. As individuals, students will know basic physiological, psychological, social, and economic effects of drugs for the purpose of making informed decisions.

5. As members of the community of scholars, students will be able to communicate intelligently about physiological, psychological, social, and economic effects of drugs; and be able to analyze common substance abuse issues that may be relevant to their majors and careers.

6. As citizens of local communities and the world, students will know the impact of drugs, both legal and illegal, on history, cultures, law, and community.

IV. Methods of Instruction and Work Expectations

This class is largely lecture based; it is imperative to attend lectures, including any guest lectures that will be presented throughout the semester. It is our intention to make PowerPoint slides available on Moodle, but this will not always be possible and the slides may not be available before class.

COURSE WEBSITE:

Please make sure that you are accessing Moodle 2.6 and not 2.4. Go to http://www.oit.umn.edu/moodle/login-instructions/ for instructions.

Internet and Moodle Help:

- Students can contact the Technology helpline at 612-301-4357 (1-HELP on campus) for help with internet and Moodle access problems
- Student Support - http://it.umn.edu/services/all/academic-technology-tools/course-management/
E-mail: We will use your University e-mail address to notify you of important announcements such as examinations and forced cancellation of classes due to weather. If you use a different e-mail address than the one the University has assigned, please go to: https://www.umn.edu/validate and forward your University e-mail account to the one you are using. You can also get to this site via: www.onestop.umn.edu

For general information and questions, your Teaching Assistant(s) is your first line of contact and can be reached at the email(s) listed on page 1.

V. Course Texts and Readings

1. There are two textbooks for this course:

2. i>Clicker: We will be using the i>Clicker technology in this course. You can buy or rent the i>Clicker 2 from the UMN Bookstore. For more information, visit: http://z.umn.edu/iclickerstudent
   Make sure you are using the i>Clicker brand (see image below) and NOT a Turning Point brand.

3. Additional required readings are listed in the schedule below and can be accessed via Moodle.
   Due to the nature of the topics, further required readings may be added throughout the semester. All of these will be accessible via the Moodle course page.

VI. Course Outline/Weekly Schedule

*Although it is possible to accrue more than 40 points during the term, the maximum number of points students can earn towards their grade from iclicker participation is 40 points.

Points needed to receive the following grades:

A  94-100 % = 374 – 400 points
A- 90-93 % = 358 – 373.5 points
B+ 87-89 % = 346 – 357.5 points
B  84-86 % = 334 – 345.5 points
B- 80-83 % = 318 – 333.5 points
C+ 77-79 % = 306 – 317.5 points
C  74-76 % = 294 – 305.5 points
C- 70-73 % = 278 – 293.5 points
D+ 65-69 % = 258 – 277.5 points
D  60-64 % = 238 – 257.5 points
Assignments
All assignments require you to upload your assignment to Moodle by the due date and time. All assignments should be submitted as a Word document (.doc or .docx) or PDF (.pdf) format. If you have any questions or concerns about how to upload to Moodle, contact Moodle at moodle@umn.edu well in advance of the due date.

NOTE: It is your responsibility to make sure the assignment has been uploaded to Moodle by the due date. Double-check to make sure you have uploaded the correct document(s). Failure to upload the correct documents on time will be subject to the late assignment policy.

Our intention is to have grades for each assignment available on Moodle approximately two weeks after the due date. It is your responsibility to keep up-to-date with the grades provided and inform your TA if you have any questions or concerns regarding a grade for your assignments and exams. Concerns with assignments must be communicated with a TA within two weeks of being posted to Moodle in order for us to address the issue.

Late Assignment Policy
Unless you have been granted an extension on an assignment for a compelling reason, for each day past the original due date, 10% of the maximum grade will be deducted per day late. NOTE: Whether 1 minute late or 19 hours late, this policy stands. Therefore, be sure to give yourself enough time to upload your assignments to Moodle by the due date and time. If you have any questions or concerns about how to upload to Moodle, contact Moodle at moodle@umn.edu well in advance of the due date. Assignments will not be accepted after the 5th day overdue.

One day late = the max you will be able to earn is 90%
Two days late = the max you will be able to earn is 80%
Three days late = the max you will be able to earn is 70%
Four days late = the max you will be able to earn is 60%
Five days late = the max you will be able to earn is 50%

Extra Credit
Students can choose from several extra credit options to submit for up to 20 extra credit points (10 points for the HEALTH section and 10 points for the DRUG section of the class). All extra credit must be submitted no later than noon on Monday, May 4th for Health content and noon on Tuesday, May 5th for Drug content. Details are provided on the course Moodle site.

Make-up exams policies and procedures
Excusable absences
(http://www.policy.umn.edu/Policies/Education/Education/MAKEUPWORK.html#100)
If you are prevented by illness or other emergency from taking an exam at the regularly scheduled time, you must:

1. Notify your TA before the start of the exam
2. Provide proper documentation of illness/circumstance for the TA.

Note that the instructor has primary responsibility to decide if an absence is due to unavoidable or legitimate circumstances, and you must provide proper documentation of the issue. Failure to do so may result in a score of 0 on the exam.

In the case of make-up exams, it is your responsibility to contact the TA to set up a time to retake an exam. Make-up exams must be conducted within one week of the original exam date.

NOTE: You must provide documentation that is verified BEFORE the makeup exam is scheduled. You CANNOT take the exam if you do not provide verified documentation.
The University utilizes plus and minus grading on a 4.000 cumulative grade point scale in accordance with the following:

- **A** 4.000 - Represents achievement that is outstanding relative to the level necessary to meet course requirements
- **A-** 3.667
- **B+** 3.333
- **B** 3.000 - Represents achievement that is significantly above the level necessary to meet course requirements
- **B-** 2.667
- **C+** 2.333
- **C** 2.000 - Represents achievement that meets the course requirements in every respect
- **C-** 1.667
- **D+** 1.333
- **D** 1.000 - Represents achievement that is worthy of credit even though it fails to meet fully the course requirements
- **S** Represents achievement that is satisfactory, which is equivalent to a C- or better.

For additional information, please refer to:
http://policy.umn.edu/Policies/Education/Education/GRADINGTRANSCRIPTS.html.

**Course Evaluation**
Beginning in fall 2008, the SPH will collect student course evaluations electronically using a software system called CoursEval: www.sph.umn.edu/courseval. The system will send email notifications to students when they can access and complete their course evaluations. Students who complete their course evaluations promptly will be able to access their final grades just as soon as the faculty member renders the grade in SPHGrades: www.sph.umn.edu/grades. All students will have access to their final grades through OneStop two weeks after the last day of the semester regardless of whether they completed their course evaluation or not. Student feedback on course content and faculty teaching skills are an important means for improving our work. Please take the time to complete a course evaluation for each of the courses for which you are registered.

**Incomplete Contracts**
A grade of incomplete "I" shall be assigned at the discretion of the instructor when, due to extraordinary circumstances (e.g., documented illness or hospitalization, death in family, etc.), the student was prevented from completing the work of the course on time. The assignment of an "I" requires that a contract be initiated and completed by the student before the last official day of class, and signed by both the student and instructor. If an incomplete is deemed appropriate by the instructor, the student in consultation with the instructor, will specify the time and manner in which the student will complete course requirements. Extension for completion of the work will not exceed one year (or earlier if designated by the student’s college). For more information and to initiate an incomplete contract, students should go to SPHGrades at: www.sph.umn.edu/grades.

**University of Minnesota Uniform Grading and Transcript Policy** - A link to the policy can be found at onestop.umn.edu.

VIII. Other Course Information and Policies

Grade Option Change: (if applicable):
For full-semester courses, students may change their grade option, if applicable, through the second week of the semester. Grade option change deadlines for other terms (i.e. summer and half-semester courses) can be found at onestop.umn.edu.

Course Withdrawal:
Students should refer to the Refund and Drop/Add Deadlines for the particular term at onestop.umn.edu for information and deadlines for withdrawing from a course. As a courtesy, students should notify their instructor and, if applicable, advisor of their intent to withdraw.

Students wishing to withdraw from a course after the noted final deadline for a particular term must contact the School of Public Health Office of Admissions and Student Resources at sph-ssc@umn.edu for further information.

Student Conduct Code:
The University seeks an environment that promotes academic achievement and integrity, that is protective of free inquiry, and that serves the educational mission of the University. Similarly, the University seeks a community that is free from violence, threats, and intimidation; that is respectful of the rights, opportunities, and welfare of students, faculty, staff, and guests of the University; and that does not threaten the physical or mental health or safety of members of the University community.

As a student at the University you are expected adhere to Board of Regents Policy: Student Conduct Code. To review the Student Conduct Code, please see: http://regents.umn.edu/sites/default/files/policies/Student_Conduct_Code.pdf.

Note that the conduct code specifically addresses disruptive classroom conduct, which means "engaging in behavior that substantially or repeatedly interrupts either the instructor's ability to teach or student learning. The classroom extends to any setting where a student is engaged in work toward academic credit or satisfaction of program-based requirements or related activities."
Use of Personal Electronic Devices in the Classroom:
Using personal electronic devices in the classroom setting can hinder instruction and learning, not only for the student using the device but also for other students in the class. To this end, the University establishes the right of each faculty member to determine if and how personal electronic devices are allowed to be used in the classroom. For complete information, please reference: http://policy.umn.edu/Policies/Education/Education/STUDENTRESP.html.

Scholastic Dishonesty:
You are expected to do your own academic work and cite sources as necessary. Failing to do so is scholastic dishonesty. Scholastic dishonesty means plagiarizing; cheating on assignments or examinations; engaging in unauthorized collaboration on academic work; taking, acquiring, or using test materials without faculty permission; submitting false or incomplete records of academic achievement; acting alone or in cooperation with another to falsify records or to obtain dishonestly grades, honors, awards, or professional endorsement; altering, forging, or misusing a University academic record; or fabricating or falsifying data, research procedures, or data analysis. (Student Conduct Code: http://regents.umn.edu/sites/default/files/policies/Student_Conduct_Code.pdf) If it is determined that a student has cheated, he or she may be given an "F" or an "N" for the course, and may face additional sanctions from the University. For additional information, please see: http://policy.umn.edu/Policies/Education/Education/INSTRUCTORRESP.html.

The Office for Student Conduct and Academic Integrity has compiled a useful list of Frequently Asked Questions pertaining to scholastic dishonesty: http://www1.umn.edu/oscai/integrity/student/index.html. If you have additional questions, please clarify with your instructor for the course. Your instructor can respond to your specific questions regarding what would constitute scholastic dishonesty in the context of a particular class—e.g., whether collaboration on assignments is permitted, requirements and methods for citing sources, if electronic aids are permitted or prohibited during an exam.

Makeup Work for Legitimate Absences:
Students will not be penalized for absence during the semester due to unavoidable or legitimate circumstances. Such circumstances include verified illness, participation in intercollegiate athletic events, subpoenas, jury duty, military service, bereavement, and religious observances. Such circumstances do not include voting in local, state, or national elections. For complete information, please see: http://policy.umn.edu/Policies/Education/Education/MAKEUPWORK.html.

Appropriate Student Use of Class Notes and Course Materials:
Taking notes is a means of recording information but more importantly of personally absorbing and integrating the educational experience. However, broadly disseminating class notes beyond the classroom community or accepting compensation for taking and distributing classroom notes undermines instructor interests in their intellectual work product while not substantially furthering instructor and student interests in effective learning. Such actions violate shared norms and standards of the academic community. For additional information, please see: http://policy.umn.edu/Policies/Education/Education/STUDENTRESP.html.

Sexual Harassment:
"Sexual harassment" means unwelcome sexual advances, requests for sexual favors, and/or other verbal or physical conduct of a sexual nature. Such conduct has the purpose or effect of unreasonably interfering with an individual's work or academic performance or creating an intimidating, hostile, or offensive working or academic environment in any University activity or program. Such behavior is not acceptable in the University setting. For additional information, please consult Board of Regents Policy: http://regents.umn.edu/sites/default/files/policies/SexHarassment.pdf

Equity, Diversity, Equal Opportunity, and Affirmative Action:
The University will provide equal access to and opportunity in its programs and facilities, without regard to race, color, creed, religion, national origin, gender, age, marital status, disability, public assistance status, veteran status, sexual orientation, gender identity, or gender expression. For more information, please consult Board of Regents Policy: http://regents.umn.edu/sites/default/files/policies/Equity_Diversity_EO_AA.pdf.
Disability Accommodations:
The University of Minnesota is committed to providing equitable access to learning opportunities for all students. The Disability Resource Center Student Services is the campus office that collaborates with students who have disabilities to provide and/or arrange reasonable accommodations.

If you have, or think you may have, a disability (e.g., mental health, attentional, learning, chronic health, sensory, or physical), please contact DRC at 612-626-1333 or drc@umn.edu to arrange a confidential discussion regarding equitable access and reasonable accommodations.

If you are registered with DS and have a current letter requesting reasonable accommodations, please contact your instructor as early in the semester as possible to discuss how the accommodations will be applied in the course.

For more information, please see the DS website, https://diversity.umn.edu/disability/.

Mental Health and Stress Management:
As a student you may experience a range of issues that can cause barriers to learning, such as strained relationships, increased anxiety, alcohol/drug problems, feeling down, difficulty concentrating and/or lack of motivation. These mental health concerns or stressful events may lead to diminished academic performance and may reduce your ability to participate in daily activities. University of Minnesota services are available to assist you. You can learn more about the broad range of confidential mental health services available on campus via the Student Mental Health Website: http://www.mentalhealth.umn.edu.

The Office of Student Affairs at the University of Minnesota:
The Office for Student Affairs provides services, programs, and facilities that advance student success, inspire students to make life-long positive contributions to society, promote an inclusive environment, and enrich the University of Minnesota community.

Units within the Office for Student Affairs include, the Aurora Center for Advocacy & Education, Boynton Health Service, Central Career Initiatives (CCE, CDes, CFANS), Leadership Education and Development – Undergraduate Programs (LEAD-UP), the Office for Fraternity and Sorority Life, the Office for Student Conduct and Academic Integrity, the Office for Student Engagement, the Parent Program, Recreational Sports, Student and Community Relations, the Student Conflict Resolution Center, the Student Parent HELP Center, Student Unions & Activities, University Counseling & Consulting Services, and University Student Legal Service.

For more information, please see the Office of Student Affairs at http://www.osa.umn.edu/index.html.

Academic Freedom and Responsibility: for courses that do not involve students in research:
Academic freedom is a cornerstone of the University. Within the scope and content of the course as defined by the instructor, it includes the freedom to discuss relevant matters in the classroom. Along with this freedom comes responsibility. Students are encouraged to develop the capacity for critical judgment and to engage in a sustained and independent search for truth. Students are free to take reasoned exception to the views offered in any course of study and to reserve judgment about matters of opinion, but they are responsible for learning the content of any course of study for which they are enrolled.*

Reports of concerns about academic freedom are taken seriously, and there are individuals and offices available for help. Contact the instructor, the Department Chair, your adviser, the associate dean of the college, (Dr Kristin Anderson, SPH Dean of Student Affairs), or the Vice Provost for Faculty and Academic Affairs in the Office of the Provost.
