With your consent, your child recently participated in our Project EAT survey at school. Project EAT is a large survey of teens in the metro area that aims to learn more about the kinds of things that impact the eating habits and physical activity patterns of young people.

Now we have some questions we would like to ask you as the caregiver for this child.

- In this survey we will be asking you questions about yourself, your family and also about your child who recently participated in Project EAT. Please keep this child in mind when responding.

- Your name is not on this survey and all of your answers will be kept private, so please answer honestly. There are no right or wrong answers.

- Parents get a lot of mixed messages about food and weight and it can be hard to know what to do. The information that you and other parents provide in this survey will teach us about the challenges that families are facing. Your input will guide the development of programs for children and their families across the nation. Your input WILL make a difference.

Upon completion of the survey, please send it back in the enclosed return envelope and we will send you a $25 Target gift card right away in appreciation of your time.
