

## Public Health Nutrition Standard Program MPH

The Public Health Nutrition (PHN) MPH program is designed for students who are committed to health promotion and disease prevention through healthy eating. The curriculum emphasizes food access, nutrition policy, community nutrition interventions and programs, health disparities, nutrition assessment, and healthy eating throughout the life course. Students must complete a minimum of 42 credits. To complete program requirements, students will choose electives, in consultation with their academic advisor, which may include credits towards a minor.
