

Healthcare Leadership Accelerator

Description & Purpose

The Minnesota MHA Program seeks to develop distinctive leaders with character, competence, and authenticity in the field of healthcare administration. The purpose of the Accelerator Program is to provide enhanced leadership and professional development offerings by creating a comprehensive program for our residential and executive students. As such, the goals of the Accelerator Program include:

- Graduates will be recognized as distinct in the industry because of their authenticity, leadership trajectories, inclusion, and professionalism.
- Graduates are known in the industry as courageous, challengers of the status quo, problem-solvers, and clear-thinking leaders.
- Graduates are self-aware of strengths, areas to improve, and confident in their potential as emerging leaders.
- The MHA Program will continue to attract leading healthcare industry professionals, alumni, and faculty to further engage with students through leadership development activities.

Residential & Executive Student Accelerator

Through developmental coursework, leadership coaching, career planning, and connections to industry and alumni, the Residential and Executive Student Accelerator Program seeks to develop the students of today into the healthcare leaders of tomorrow. A summary of the program elements includes:

- Leadership Development Courses & Assessments
- Connections with Industry
- Career Planning and Employment Search Resources
- Leadership & Service Opportunities
- Graduation Transition & Post-Graduation Support

A sample outline of the program is listed below.
