ARTICLE II. MISSION

Build an alumni-centered culture within the SPH community by fostering connections among alumni, faculty and students.

ARTICLE III. VISION

Alumni will enjoy lifelong engagement and pride in the SPH, and will actively support SPH endeavors and its alumni.

ARTICLE IV. DIVERSITY AND INCLUSION COMMITMENT

The Society is a diverse, inclusive, and equitable organization where all members, volunteers, students, and staff, regardless of their gender, race, ethnicity, national origin, age, sexual orientation or identity, education or disability, feels valued and respected. We are committed to a nondiscriminatory approach and provide equal opportunity in all of our programming. We respect and value diverse life experiences and heritages and ensure that all voices are valued and heard.

We are committed to modeling diversity and inclusion for the SPH alumni community, and to maintaining an inclusive environment with equitable treatment for all.

To provide informed, authentic leadership for cultural equity, the Board and the Society strive to:

- See diversity, inclusion, and equity as connected to our mission and critical to ensure the well being of community.
- Acknowledge and dismantle any inequities within our policies, systems, programs, and services, and continually update and report organization progress.
- Explore potential underlying, unquestioned assumptions that interfere with inclusiveness. Advocate for and support board-level thinking about how systemic inequities impact our organization’s work, and how best to address that in a way that is consistent with our mission.
- Help to challenge assumptions about what it takes to be a strong leader at our organization, and

who is well-positioned to provide leadership.

- Practice and encourage transparent communication in all interactions.
- Commit time and resources to expand more diverse leadership within our board, committees, and advisory bodies.
- Lead with respect and tolerance. We expect all staff and volunteers to embrace this notion and to express it in Board and Society interactions and through everyday practices.

The Society abides by the following action items to help promote diversity and inclusion in our Society:

- Pursue cultural competency throughout our Society by creating substantive learning opportunities and formal, transparent policies.
- Generate and aggregate information related to equity to make incremental, measurable progress toward the visibility of our diversity, inclusion, and equity efforts and share resources and progress with the broader SPH community.
- Improve our cultural leadership pipeline by creating and supporting programs and policies that foster leadership that reflects the diversity of American society and the membership of the Society.
- Pool resources and expand offerings for underrepresented constituents by connecting with other public health organizations committed to diversity and inclusion efforts.
- Develop and present sessions on diversity, inclusion, and equity to provide information and resources internally, and to share with the SPH community.
- Develop a system for being more intentional and conscious of bias during board and committee selection processes. Train the board on equitable practices.
- Advocate for public and private-sector policy that promotes diversity, inclusion, and equity. Challenge systems and policies that create inequity, oppression and disparity.
